PROJECT REPORT TEMPLATE
EDUCONNECT LEARNING CENTER

## 1.Introduction:

1.1 overview

EduConnect Learning Center, an educational institution, uses Zoho Books to manage their donations, track expenses, and handle grant finances. They can generate donor receipts, track expenses related to educational programs, and generate financial reports. Zoho Books helps them maintain financial transparency and accountability.
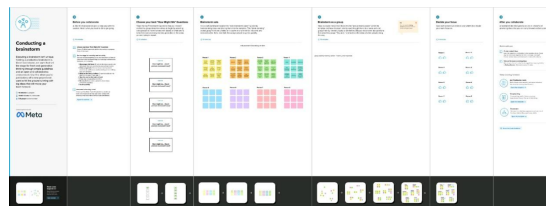

1.2 purpose

Educonnect learning center is an innovative education-focused web application that is changing the way parents, students and educators discover, research and review schools and educational programs. With Educonnect, users can search for schools in their area, read reviews from other parents and students and view detailed information about the school's curriculum, staff and facilities.
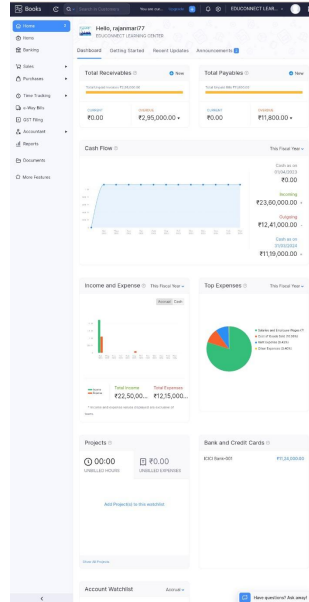

2.Problem Definition & Design Thinking

2.1 Empathy Map

2.2 Ideation & Brainstorming Map

3 .RESULT

4. ADVANTAGES & DISADVANTAGES

4.1 Advantage

One of the most effective ways to switch the focus from the teacher to the students. Instead of being a "sage on the stage," you are a "guide on the side." Learning center are used to force students to take ownership of their learning, but they allow you to better spend your time helping the students who need it.

4.2 Disadvantage

An appoach to learning with not as much structure or discipline as a traditional method, causing students to feel overwhelemed and maybe not pull as much from learning as they normally would. Also, another disadvantage to learner-centered instruction would be too much independence.

5. APPLICATIONS

There are so many learnig institutions here, most of them are there to make profit and not to teach, they don't care about the students. Our Educonnect learning center aims to solve this problem and provide good and useful education to students in a great way and help them to achieve their goals.

6 .CONCLUSIONS

Designing effective learning environments includes considering the goals for learning and goals for students.In conclusion, learning center have significantly shaped the global economy and brought students together from all over the world. The service has shown remarkable resilience in the face of various challenges, and has continued to grow and evolve.

7 .FUTURE SCOPE

Digital learning not only encompasses various spheres of a student's life but has also constantly helped present and future employees as well as employers in gaining knowledge out of the education system and akin to latest and current developments. Not only there are websites based on education but also for wellness and productivity and applications for meditation and rejuvenation so that the studies/work doesn't take a toll on your mental and in turn physical health.
